# What is disposable temporary email?

Disposable temporary email protects your real email address from spam, advertising mailings, malwares. It's anonymous and free. If this email will not receive messages some time — it will be removed. It is also called "**throwaway email**", "**10 minute mail**", "**tempmail**", "**trash mail**" and "**fake mail**". Temporary email can be used to hide your real email: social networks, download files from file hosting, public Wi-Fi spots, blogs and forums require users to complete registration until they can fully use their website.
